

## DESOI AirPower 1CR

No. 10782

### Description

The compact membrane pump DESOI AirPower 1CR was specially developed for the moisture barrier system. The ready-mixed cream is sucked out of the 6 l material container by a suction system. The operating pressure is preset to 5 bar.

### Material to be used

- Injection creme

### Delivery range

6 l material container transparent with scale and cover, manometer 0 – 10 bar, incl. instruction manual,

No. 500-07-374: Material hose (Ø 12 mm, 5 m long, connection G ¼" on claw coupling),

No. 500-07-723: Gun with filling lance (Ø 10 x 500 mm)

### Advantages

- Preset pressure
- Large material passages
- Direct suction from the material container
- High suction power - no loss of material
- Simple operation and cleaning
- Immediately ready for use

1. Pressure reducer with manometer

### Technical data

Working pressure	1 – 8 bar
Delivery	20 l/min
Air consumption	min. 100 l/min
Transmission ratio	1 : 1
Air pressure	max. 8 bar
Weight	11 kg
L x W x H	55 x 35 x 57 cm
