

Dear Sir or Madam,

At the end of this eventful year it is time to say "THANK YOU".

- We thank you for your many years of LOYALTY as our customer and partner!
- We thank you for the TRUST in us and in our products!
- We thank you for the good and fair COOPERATION!

We believe that with you as the customer and with us as the manufacturer, we will continue to implement solutions for interesting projects as a team in the years to come. We are looking forward to 2022!

Your Desoi Team

INJECTION TECHNIQUE

Joint sealing / Joint renovation

There will be a technological update in the subsequent sealing in the areas of sealing, construction and expansion joints this year.

With the products B-STING® joint injection needle, B-JOINT® flexible hose profile and B-BROFILE® matching injection profile, the range for subsequent joint sealing is complete.

Please feel free to make an enquiry without obligation or find out more on the website.

DESOI PowerInject EC-2

Are you looking for a maintenance-friendly and low-wear injection machine?

We recommend the compact eccentric pump DESOI PowerInject EC-2. A small, light and handy pump especially for processing aqueous solutions. It is sturdy and therefore suitable for every construction site use. By regulating the pressure, it is possible to pressurise the packer for a few minutes. The suction hose with intake filter can be immersed directly in the material container. The low-wear valve technology ensures a long service life.

We want to surprise you in the festive season...

Order online and you will receive a gift that is behind the little door on the advent calendar that day. This gift will then go straight into your shopping basket! Find out about content every day on our homepage and do not miss any special offers or promotions.

[Ordering online is especially worth it in the festive season!](#)

WEB SEMINARS

Thank you very much for participating in the web seminars and for your interest in our products.

We want to continue the successful series in 2022. **You can already register now!**

THREAD UNSCREWING UNITS

Special design: Angle unscrewing unit WSR40-1

Special feature:
Hydraulic motor and proximity sensor on one side
Use:
Limited installation space

Together with the customer, we produced a special angle unscrewing unit for a project. The unit has been optimised and adapted to the limited installation space.

Special feature: the hydraulic motor and proximity sensor are located on one side of the unit, so cables and hoses are much easier to reach.

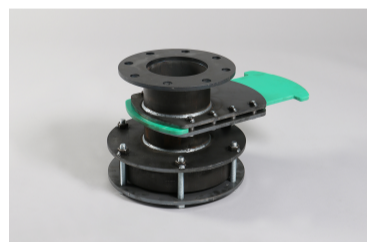

Do you also use customised unscrewing units? Then contact us, we will find a solution for your thread together

Your contact person:
Sebastian Bohl - Phone: 06655 9636-37
Email: moulding@desoi.de

ENGINEERING & TECHNOLOGY

Special construction - preventer with slider

The preventer with slider is used to seal a drill pipe with an outer Ø of 120 mm. It is designed for a pressure range of approx. 2 bar. The preventer is connected to a standpipe via a flange. The preventer slider serves as a lock. We manufacture your individual product for you!

Double rotary head

The DESOI double rotary head is used for the production of earth bores, e.g. used in geothermal energy. The newly designed type of seal and the possible re-tensioning of the seals from the outside have significantly reduced the downtimes of the drilling equipment.

COMPANY

Between the years...

Our factory will be closed from 23 December 2021 to 4 January 2022. The last working day is Wednesday, 22 December 2021. **We will once again be fully available as normal from 5 January 2022.** Please include the relevant information in order to avoid delivery delays. We would like to thank our customers for the good cooperation in this eventful year 2021 and look forward to a successful year in 2022.

Senior partner Siegfried Desoi celebrated his 80th birthday.

"First at work in the morning, last to leave in the evening"

Siegfried Desoi, founder of DESOI GmbH, celebrated his 80th birthday on Thursday, 4 November 2021, with his family and 95 employees. For many years, he was the first at work in the morning and the last to leave in the evening...
