

Dear Sir or Madam,

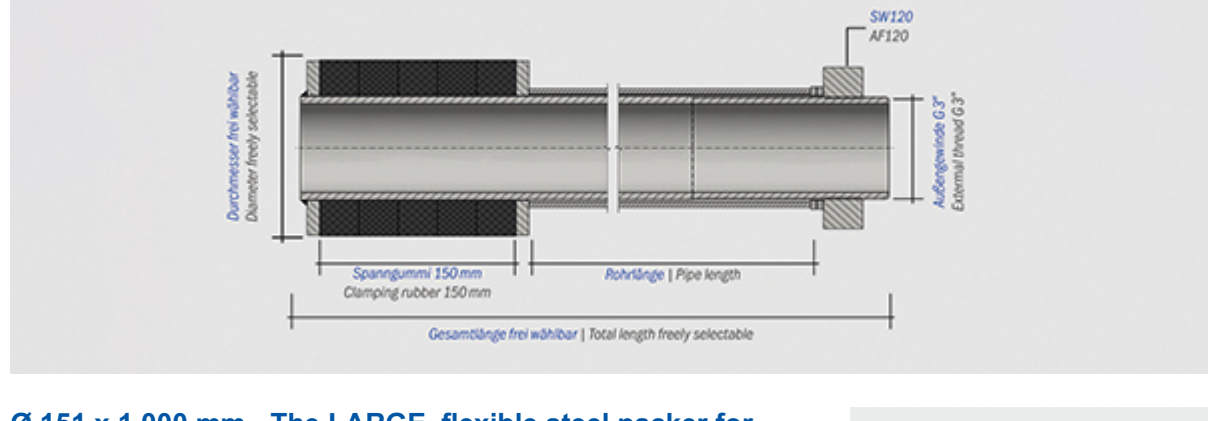

A picture speaks a thousand words!

Although at first glance some things do not fit together, being different is a chance to make everything possible, if you only want to.
We are there for you as your partner - look in the same direction with us.

We know about the real values!

your Desoi Team

INJECTION TECHNIQUE

Ø 151 x 1.000 mm - The LARGE, flexible steel packer for mineral injection

From now on, the innovative steel packer with external thread G3" enriches our range. The "LARGE" is free in diameter and length individually. Thus, an extraordinary packer is available for injection with mineral materials.

Of course, we also supply the right connection systems.

[You are welcome to request your individual steel packer here.](#)

DESOI PowerInject 303

Are you looking for a robust and powerful Membrane Pump for injection with polymeric fillers?

We recommend the compact DESOI PowerInject 303 Membrane Pump for professional construction site use. The special feature of Membrane Pump is the large membrane area and the large suction valve, which facilitates the suction of highly viscous materials.

The DESOI PowerInject 303 is available in different versions!

[Have we sparked your interest? More information about the large selection and online order!](#)

Guaranteed shipping

DESOI guarantees fast and uncomplicated processing of ordered goods, also online.

Orders for goods in stock until 3 p.m. leave the house on the same day and are usually delivered within a period of 24 to 72 hours – worldwide, of course.

TECHNICAL REPORTS

Restoration "Museum Kirche zum Heiligen Kreuz" (Kreuzkirche) Zittau

Historic buildings, sustainability and nature conservation belong together for us!

With the help of the DESOI Anchor stocking system, buildings and walls can be preserved for future generations. The system makes it possible to stabilise buildings in the existing building stock that are protected as historical monuments with minimal interference in the building material.

The museum church "Zum Heiligen Kreuz" in Zittau was renovated with the DESOI Anchor stocking and the appropriate technology. You will find other information and details can be found in the special edition.

We look forward to hearing from you if you have any questions or suggestions. We would be happy to advise you on your project.
