

**Dear Sir or Madam,**

In this month's newsletter we have both new and old to tell you about!

Don't hesitate to write or call us – we're more than happy to talk with you personally or just to send you more information.

## INJECTION TECHNIQUE

**The new DESOI product catalog is available!**

Not just products – our new catalog is full of knowledge, real-world applications and technical know-how. This 15th edition has a lot to offer with its new organizational concept and a number of extras. We'll be happy to send it to you in either the German/English or German/French language version.

### DESOI Flow Control II – Constant monitoring of injection pressure, material consumption and mixing ratio

During the injection process, the data is monitored, then digitally processed and finally recorded. The recording allows the injection parameters for each packer to be reviewed later, and provides the client with a meaningful documentation of the injection work completed.

### New, improved connecting systems for injection – announcing the DESOI Z Slider and DESOI Snappy

Easy to use and completely re-usable – these innovations make the injection process both easier and more reliable.

**DESOI Z-Slider** - The environmentally-sustainable injection connector for mineral injections. **DESOI Snappy** - New system for joining round-head nipples to injection connectors.

## COMPANY

**Reflecting on the past year, dreaming about the next ...**

We wish you and your family a delightful holiday season and a healthy and successful New Year!

We are also looking forward to a productive partnership in the coming year.
