

**Dear Sir or Madam,**

This month once again we provide you this update on our innovations and proven solutions.

Feel free to write or call us - we'll be happy to consult with you or send additional information.

*Your Desoi Team*

**INJECTION TECHNIQUE**

**DESOI AirPower M25C-3C VA – light and handy!**

The successor to our proven and dependable piston pump PN-1412-3K Compact stainless steel for the injection of acrylate gel (AY)

In order to simplify your work with injection, we've made some important improvements to our multi-component pneumatic piston pump PN-1412-3K Compact stainless steel. Our new successor model, the DESOI AirPower M25C-3C VA, is bound to make your life easier, weighing only 45 kg and featuring the simplest operation and serviceability you've seen yet.

**Crack injection with our grouting needle**

Deep, narrow open cracks are easily repaired using our grouting needle.

Cracks in horizontal structures can be injected with polymer resin without drilling any holes. The grouting needle is inserted into the crack and filled via the ball valve.

**DESOI Injection ABC – 3rd edition now available in additional languages**

Ask us today about the ABC in English or French!

Newly designed, revised, and including additional terms and concepts. Order now for the ultimate reference work on injection technology for construction professionals in **English** or **French**.

**Simple and fast – Crack injection with the wedge packer**

Our wedge packer optimized for crack widths between 12 and 22 mm.

Our tried-and-true wedge packer is the ideal tool for the injection of mineral cement materials. Its advantages are well-known and valued, especially for simplicity and speed. Drive in the wedge packer, inject, and remove. **That's it!**

**Apprenticeship at DESOI**

*"You can accomplish great things, if you only trust yourself."  
Alexander von Humboldt*

Jessica, Business Administrator, in our inside sales center, Luis, Technical Product Designer, in our design center and Marvin and Nick, Industrial Mechanics, in our machine shop. We wish the newest members of our team success during their apprenticeships with DESOI. **Welcome to the team!**
