

Dear Sir or Madam,

we'll be in touch in the run-up to Christmas with our fourth newsletter in addition to presenting you with a number of innovative products from DESOI shortly before the end of the year.

There's sure to be something which interests you and we look forward to your feedback.

Stay healthy and see you soon

Your Desoi Team

INJECTION TECHNIQUE

Connecting injection hoses securely

The new connection piece - polymer creates a quick, secure connection for extending injection hoses. The right-left tapered wood screw thread pulls the connection piece tightly together with the injection hose. With its dimensions of Ø 8 (shaft) x 58 mm, the connecting piece with wing handle has an free passage of Ø 3 mm and is suitable for the injection hose with its internal dimensions of Ø 4 – 6 mm.

Steel packer with check valve

Having been developed even further, the steel packers with check valve offer a new product range thanks to their various diameters and lengths. The 1-day steel packer is available with a length of 180 mm and a diameter of 18, 20, 22, 25, and 28 mm or another diameter.

Steel packer - VARIO

A new feature of this product is that the lower part and pressure piece can be combined freely so as to obtain different variants of the steel packer. The lower part with check valve and locking system is available in nine different diameters. The pressure piece is available in 200, 600, 1,000 and 1,500 mm variants. The right product for every application!

Lamella infusion tube for renovating components through a spraying procedure

The Ø 18 mm lamella infusion tube is suitable for components such as hollow blocks and double-shell masonry. Having been pressed, it remains in the component; it is then cut off flush with the surface and closed using a cap.

Special feature: When using a spraying procedure, the drill hole is moistened and the filler pulls itself into the wall, thus ensuring optimal penetration into the masonry. The lamellar infusion tube is suitable for low-viscosity products and silicification solutions.

DESOI Noble Seal - an elegant way to seal exposed concrete

Seal quickly and securely without sacrificing aesthetics – that's what the DESOI Noble Seal does!

The innovative lock visually enhances any exposed concrete wall. The packers are braced in the openings by a hexagon over the fillister head screw - these can even be installed overhead into ceilings with ease.

The DESOI Noble Seal is available in various diameters and can also be manufactured upon customer request.

Web seminars tailored to your requirements

Stay up to date with regular training

DESOI offers web seminars tailored to the needs of your company. If you're interested in a specific topic like

- Crack injection
- Horizontal sealing
- Curtain and surface injection
- DESOI Spiral Anchor System
- DESOI Anchor Plus W System
- DESOI Anchor Stocking System

then get in touch with us. We'll put together the right seminar for you.

Please direct requests to:

Petra Krack-Sippel, +49 6655 9636-34, events@desoi.de

We look forward to receiving your request!

Application video for the DESOI Anchor Stocking System

An [application video](#) is now available for the tried and tested DESOI Anchor Stocking System. The video explains how to install and use the system. The DESOI Anchor Stocking System for masonry renovation ensures a form-fitting, solid connection in the masonry, secures cracked components, and creates a tensile connection. The system is perfectly suited for repairing listed buildings with care.

COMPANY

Our new...

As of this year, a new bus has been added to our vehicle fleet - our stickers ensure we're always easy to recognise when we're travelling to customers or events.

A reflective advent season...

The magic of hope knows endless lights which cannot be extinguished. (Monika Minder)

Dear business partners and friends,

A year ago nobody could have imagined the challenges we would face in 2020 - uncharted territory for us all. We owe it to loyalty and our cooperation with you that we made it through this difficult period.

We would like to **THANK** you for your trust this year and wish you, your employees, and your families a wonderful Advent period and a relaxing Christmas time. We wish you success and health for 2021.

**Best regards,
Your DESOI team**
