

Dear Sir or Madam,

It's time once again to bring you up to date with our news on innovations and proven solutions.

The last few weeks have seen a number of noteworthy events take place - let's have a look.

And don't hesitate to contact us by phone or mail. We'll be happy to give you whatever help and advice we can.

Your Desoi Team

INJECTION TECHNIQUE

Do you already know our extracting tool

Packers can be re-used more easily than ever. Use our removal tool after completing your injection process to extract your packer from the structure. Just screw the removal tool into the interior threading on the packer and employ the striking weight.

Take part in our DESOI web seminars

Stay up to date on new technology: We have recently started offering our customers online seminars on the subject of injection.

The seminars will take place on **23rd and 24th September** with the topics **crack injection** as well as **curtain and masonry injection**. They will last 45 minutes and will be followed by plenty of time to ask questions.

The brochure for DESOI w.i.l.m.a. – Now available for you

More safety for injection processes
DESOI w.i.l.m.a. provides a newly-developed technology which not only documents your injections, it actively monitors them. The control system is available in four different versions controlling all your injection processes. In the process, DESOI w.i.l.m.a. records the pressure, the volume, and any variations among these variables.

You can download in [DE/EN](#) or [DE/FR](#) versions.

COMPANY

New online shop

Already had time to browse? Fast through the new [online shop](#).

You will find information on products practically at a glance. Many articles include additional information on subjects such as accessories, products related to your chosen product, illustrations of product use and technical specifications.
We have simplified the order process, added a number of payment options, and made the full range of invoices and documentation available in the customer's account.

We hope you'll find our new [online shop](#) useful and invite you today to claim one of the surprise prizes granted on our first 100 orders.

New trainees at DESOI

Since August 2020 the team has been supported by three new trainees. Also this year, the team will be supported by three trainees starting in August. Kimberly and Maxim start their apprenticeship as office clerk/man for office management, Elias as cutting machine operator in the cutting production.

We say **WELCOME** to our new trainees and look forward to an exciting time together. The management and colleagues wish a successful apprenticeship in the DESOI team.
